Technical Projects

My-Portfolio

🔗 [Live Demo](#)

I developed a personal portfolio website using **HTML, CSS, and JavaScript** to showcase my skills, projects, and achievements in a professional manner. The website has a **clean and responsive design**, created with HTML for structure and CSS for styling, ensuring it works smoothly on desktops, tablets, and mobiles.

Solar System

🔗 [Live Demo](#)

Created an interactive model of the solar system using HTML and CSS animations. Simulated planetary orbits with smooth transitions and responsive design for an engaging user experience.

Text Analysis Tool

🔗 [Live Demo](#)

Developed a Text Analysis Tool using HTML, CSS, and JavaScript that provides real-time statistics including word count, sentence count, and character count for user input.
