PROFILE INFO

I'm a backend developer with 3 years of hands-on experience working with Node.js, Express.js, Fastify, and WebSockets. I specialize in building event-driven APIs, scalable server-side applications, and backend systems. I've worked on integrating and setting up databases like MongoDB and PostgreSQL to support various application needs.

I also have basic working knowledge of Azure Cloud through the Azure portal for administrative tasks and service configurations. Experienced in collaborating within Agile teams and resolving production issues efficiently, I focus on writing clean, maintainable, and high-performing backend code.

EXPERIENCE

Software Developer

Oct 2024 - Present

Microbeans Technology Pvt. Ltd., Jaipur

- Leading the backend development of a customer support app aimed at elevating user engagement and service efficiency. Engineered real-time chat, integrated audio/video calling, and implemented robust WebSocket-based event handling to enable seamless, instant customer communication and live issue resolution. Significantly enhanced backend performance, reliability, and scalability by introducing microservices-based solutions.
- Additionally, contributed in the development of a payment gateway application, driving API development, backend integrations, and supporting the design of scalable modules.

Programmer Analyst

Jan 2022 - Oct 2024

Cognizant Technology Solutions, Noida

- Worked on a US-based client project, Humana, where I've developed and maintained secure, scalable backend applications using Node.js, with hands-on experience in the Express.js framework.
- Actively contributed in an Agile environment, participating in daily stand-ups, sprint planning, and regular code reviews to ensure timely and quality deliveries.
- Independently handled production issues, ensuring quick resolutions and maintaining system stability.
- Led the migration of API codebase from ES5 to ES6 standards, making the codebase cleaner, faster, and easier to maintain.
- Worked on backend deployments using Azure DevOps and CI/CD pipelines.
- Regularly analyzed and optimized backend operations to improve performance, reliability, and system health.
- Enhanced code quality and security by resolving SonarQube-reported issues and keeping Node.js dependencies up to date.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals [**July 2023 Microsoft**]
- The Complete Node.js Developer Course (3rd Edition) [**June 2022 Udemy**]
- GEN AI FUNDAMENTALS- Certified Generative AI Associate (Foundation) [**May-2024 Cognizant**]
- AI Assisted Code Companion- Certified in GitHub Copilot [**April 2024 Cognizant**]
- Build Responsive Real-World Websites with HTML and CSS [**March 2022 Udemy**]
- Learn Azure DevOps CI/CD Pipelines [**November 2023 Udemy**]

EDUCATION

2019 - 22 | Chandigarh University

Bachelor of Engineering- CGPA: 7.18

2015 - 19 | Aryan College BTER

Diploma Engineering- Percentage: 65.97

SKILLS

- Node JS
- Express JS and Fastify
- Mongo DB/PostgreSQL
- Microservices
- Azure Portal Services
- JavaScript

PROJECTS & TRAININGS

- HIDS & HIPS System-** Security project focused on Host Intrusion Detection and Prevention.
- First Person Shooting Game-** Simple FPS game built with Unreal Engine blueprints.
- Ethical Hacking-** Completed online training on INTERNSHALA (Cert. No. ACA26613-B3C9-A4CB-465F-2C1386284B1C)
